

Corona Virus 19 (COVID-19) Daily Site Check-in Certification

In order to promote safe work practices, and to help keep work sites free from exposure to the Covid-19 Virus, CM&B prohibits anyone from entering a work site who exhibits symptoms typical of Covid-19, including fever, cough, shortness of breath or a sore throat. Anyone who develops such symptoms while on the site is likewise required to report to his supervisor by phone and leave the site immediately.

In support of this effort, and as a condition to having (company name) _____ employees entering the project site, I verify and warrant to CM&B as follows with respect to all employees of said company reporting to work on the site today:

1. They understand that CM&B has a zero-tolerance policy for sick workers reporting to or remaining on the job site.
2. They have had their temperature taken today by either a Medical Professional or Trained Individual and do not have a temperature above 100.3 degrees.
3. They do not have a cough, shortness of breath, sore throat, tiredness, aches, chills, loss of smell, loss of taste, headache, diarrhea, severe vomiting, or other difficulty breathing.
4. They have not had “close contact” with an individual diagnosed with Covid-19. Close Contact meaning living in the same household as, caring for, being within six feet of for a duration in excess of 15 minutes, or coming in direct contact with the secretions (being coughed on for example) of any such individual.
5. They have not been asked to self-isolate by a doctor or public health official.

I have read the foregoing Certification and certify to CM&B that each of the foregoing statements are true and accurate as of the time of my signature. I further agree and acknowledge that if either I or any of my employees develop symptoms as described in paragraphs 2 and 3 above while on site, I/they shall promptly leave the site and contact my manager and the CM&B superintendent by phone.
